

35. *Aphaenogaster lamellidens* Mayr. Walhalla, Clemson College (J. E. W.).
36. *Aphaenogaster lamellidens* var. *nigripes* M. R. Smith. Seneca, Dillon (D. E. R.); Clemson College (J. E. W.); Pendleton (M. R. S.).
37. *Aphaenogaster fulva* Roger. Walhalla (M. R. S.); Pickens, Gaffney (D. E. R.).
38. *Aphaenogaster fulva aquia* var. *picea* Emery. Kingstree (D. E. R.).
39. *Aphaenogaster texana* var. *carolinensis* Whlr. Clemson College (J. E. W.); Walhalla (M. R. S.); Spartanburg, Cherokee Falls (D. E. R.).
40. *Aphaenogaster texana* var. *furvescens* Whlr. Adams Run (D. E. R.).
41. *Aphaenogaster texana* subsp. *macrospina* M. R. Smith. Navy Yard, at Charleston (D. E. R.). This subspecies was only recently described from the specimens taken by Mr. Read at the above locality.
42. *Pogonomyrmex badius* Latr. North Augusta, Florence (O. L. C.). The Florida harvesting ant is the only species of this genus known to occur in the State. The workers give a very painful sting.
43. *Myrmica punctiventris* subsp. *pinetorum* Whlr. Clemson College (M. R. S.). The workers and queens are characterized by the coarse punctations at the base of the gaster.
44. *Myrmica scabrinodis* subsp. or var. Caesar's Head (M. R. S.).
45. *Leptothorax fortinodis* Mayr. Clemson College (M. R. S.).
46. *Leptothorax fortinodis* var. *melanoticus* Whlr. Clemson College (J. E. W.); Barnwell (D. E. R.).
47. *Leptothorax curvispinosus* Mayr. Clemson College (M. R. S.); Kingstree (D. E. R.). One of the commonest species of *Leptothorax* in the State.
48. *Leptothorax pergandei* Emery. Due West, Landrum (D. E. R.). This and the following species usually nest in the soil.
49. *Leptothorax (Dichothorax) pergandei* subsp. *floridanus* Emery. Clemson College (J. E. W.).
