

At the time of our visit the type specimens of the species placed by Provancher in the Braconid subfamilies Aphidiinæ and Opiinæ were not available and the data on these were not secured. We hope, however, to secure and present it later.

Unless otherwise stated, it is to be understood that the specimens are in good condition. The letter (s) stands for the word "script." The numbers on the yellow labels are printed. Whenever possible, we chose as type the specimen which bore the name label written in Provancher's hand.
