

Cirrospilus hemansi; *Stomatoceras iris*; *Rhopalencyrtoidea longa*; *Epimegastignus madolinea*; *Thaumasura pavogiboreus*; *Epimetagea punctativentris*; *Chalcis shuberti iris*; *Phylloxeroxenoides sidneyi*; *Epimetagea tativentris*; *Neomphaloïdella thysba*.

Specimens associated with these *nomina nuda* have no type status, but have been transferred to the ANIC where Girault's unpublished manuscript dealing with them is preserved.

2. The following names are misspellings of available names: '*Agamerion 10'* = *A. io*; '*Trichohalticella coccineipes*' = *I. coccinipes*; '*Elijahia pacta*' = *E. poeta*; '*Stilbula ortodigitata*' = *S. octodigitata*; '*Trichoceras rubrifemus*' = *Trichoxenia rubrifemur*.

3. Hahn listed an ant named *Phyracaces rufoniger* Clark. This combination has never been published, and the relevant specimens have not been located in the Macleay holdings. Clark published *Rhytidoponera rufoniger* in 1936 and *Euponera (Brachyponera) rufoniger* (now *Trachymesopus*) in 1934.

ACKNOWLEDGEMENTS

We thank Drs D. S. Horning and A. D. Austin for comments on an earlier draft of this manuscript.
