

Acknowledgments

I thank the following for useful discussions and/or comments on earlier versions of this paper: A. Calder, M. Horak, J. D. Majer, R. W. Taylor and 2 anonymous reviewers, and especially A. N. Andersen and P. S. Ward. The technical support of C. Burnett was most helpful and appreciated. A special thanks to C. McPhee (Museum of Victoria) for information on type material held in her care. Financial support for this research was provided by the Australian Biological Resources Study, CSIRO Division of Entomology, and a Fulbright Foundation Fellowship.
