Zoological Results of the Swedish Expedition
to Central Africa 1921.

Insecta.

10.

Formicidæ.

By

WILLIAM MORTON WHEELER.

Communicated November 12th 1924 by Y. SJÖSTEDT and W. LECHE.

Dorylinæ.

1. *Dorylus stadelmanni* EMERY. One male from Ruanda.
2. *Dorylus affinis* SHUCKARD. Two males from Ruanda.
3. *Dorylus (Anomma) funereus* EMERY. Two males from Birunga.
4. *Dorylus (Typhlopone) fulvus* WESTWOOD var. *obscurior* SANTSCHI. Two males from Ruanda.
5. *Aenictus sudanicus* SANTSCHI. A single male from Sudan. It lacks the head and gaster, but the shape of the petiole and color indicate that it belongs to this species.

Myrmicinaæ.

6. *Myrmicaria eumenoides* GERST. subsp. *congolensis* FOREL. A single worker from Ituri.
7. *Cataulacus huberi* ERN. ANDRÉ subsp. *guilelmi* subsp. nov. ✓✓
