

COSTA RICA, NICARAGUA AND MEXICO

Ectatomma ruidum Roger

Ten workers from Port Parker, Costa Rica (VII.3.'32), Coseguina Slope, Nicaragua (VII.6.'32) and Puerto Vallarta, Mexico (VII.21.'32).

Holcoponera curtula Emery

A worker from Coseguina Slope, Nicaragua (VII.6.'32) and two from Maria Madre Island, Mexico (VII.26.'32).

Pseudomyrma gracilis Fabr. var. **mexicana** Roger

A single worker from Port Parker, Costa Rica (VII.5.'32).

Pseudomyrma pallida F. Smith

A single small worker, apparently belonging to this species, from Port Parker, Costa Rica (VII.4.'32).

Pseudomyrma sp.

A single female from Coseguina Slope, Nicaragua (VIII.7.'32) allied to *Ps. filiformis* Fabr., but specifically distinct. Owing to the difficulty of identifying female specimens of the genus *Pseudomyrma*, which is in need of revision, I refrain from introducing a new name.

Crematogaster (Orthocrema) brevispinosa Mayr
var. **minutior** Forel

A number of workers from Acapulco, Mexico (IV.3.'32), and Coseguina Slope, Nicaragua (VII.8.'32), one poorly preserved worker from Isabel Island, Mexico (III.27.'32), two females from Maria Madre Island, Mexico (VII.23.'32) and one from Cape San Lucas, Baja California (VIII.4.'32).

Solenopsis geminata Fabr.

A single worker from Port Parker, Costa Rica (VII.3.'32) and one from Coseguina Slope, Nicaragua (VII.7.'32).

Solenopsis sp.

A single small black male, with whitish wings from Isabel Island, Mexico (VII.27.'32).
