

*ctato-striatis, punctis subirregulariter sparsim impressis.*

Long.  $2\frac{3}{4}$  — 3 l. — lat.  $1\frac{1}{3}$  l.

— robustus Motsch.

*Cleonus sulcirostris* L.

*Polydrosus? costulatus* Motsch.

— tassellatus Motsch.

*Chlorophanus submarginalis*

Gebl.

— seabricollis Motsch.

— brachythorax Motsch.

*Ovatus, postice attenuatus, densissime viridi squammosus, corpore subtus lateribusque sub-sulphureis; rostro longitudinaliter carinato; thorace transverso, versus lateribus subrugoso-plicato, postice dilatato, angulis lateraliter subprominulis.*

Long.  $4\frac{1}{3}$  l. — lat.  $1\frac{5}{6}$  l.

*Chlorophanus parallelocollis*

Motsch.

*Elongato-oratus, postice acuminatus, subproductus; dense viridi squamuoso, lateribus subalbis; rostro elongato frontisque longitudinaliter carinatis; thorace subparallelo, subquadrato, rugato, angulis posticis vix prominulis; elytris subtiliter punctato-striatis, apice mucronatis.*

Long.  $4\frac{1}{3}$  l. — lat.  $1\frac{9}{5}$  l.

*Chlorophanus bidens* Motsch.

*Ovatus, postice attenuatus, apice subdivaricato bimucronatus, dense viridi argenteo squam-*

*mosus, lateribus dilutioribus; rostro-mediocri, carinato; thorace rugato, subelongato, postice dilatato, angulis subprominulis; elytris punctato-striatis.*

Long.  $2\frac{7}{5}$  — 3 l. — lat. 1 —  $1\frac{1}{5}$  l.

*Chlorophanus foveolatus*

Motsch.

*Elongato-ovatus, postice attenuatus, apice mucronatus, dense viridi-argenteo squammosus, lateribus dilutioribus; rostro carinato; thorace rugato, elongato, capitis sere latitudine; postice subangustato; elytris grosso soveolato-striatis.*

Long.  $4\frac{1}{3}$  l. — lat.  $1\frac{1}{5}$  l.

*Chlorophanus glaucopterus?*

Motsch.

*Leposoma variegata* Motsch.

*Sitones audax* Sch.

— lineellus Sch.

— sulcifrons ? Thumb.

— flavellus Motsch.

*Piazomias griseus* Motsch.

*Brachyderes ventricosus* Motsch.
