

half as long as head, slender, acuminate. Antennal scapes slender basally, somewhat thickened at apical half, attaining occipital corners; first funicular joint thicker and scarcely shorter than the second, which is a little more than three times as long as broad and subequal to the third, fourth joint two thirds as long as the terminal, which is subfusiform and pointed at tip. Eyes small, very convex, situated on lower margin of antennal fossa, well behind middle. Pronotum nearly flat, broadest in front, sides moderately arcuate, anterior angles with thick, blunt spines longer than broad, posterior angles with elevated, broad, lamellate triangular teeth, the bases of which continue as elevated side margins to the strongly sloping mesonotum. Epinotum slender, the base shorter than the declivity and rounding into it, strongly margined at sides, the margins prominently expanded and angulate between basal and declivous portions, nearly parallel on the declivity, nearly convergent anteriorly on the base, making that portion from above triangular in shape and less than twice as long as broad. Petiolar peduncle slender, longer than the node; node in profile with a rather concave dorsal surface, as long as the sloping anterior surface and much shorter than the posterior surface; from above transverse, prominently angulate at sides, subangulate in front, exposed posterior outline arcuate. Postpetiole nearly as broad as base of gaster and more than three times as broad as petiole, less than twice as broad as long, evenly convex above, anterior border straight, sides arcuate, posterior border in three subequal parts, the lateral lines feebly and the median distinctly emarginate. Legs long and rather slender.

Exposed areas smooth and shining, dorsal surface with sparse, exceedingly long and flexuous hairs, mingled on the head and thorax with shorter, coarser and strongly curved erect hairs; legs with stiff, moderately long, curved, semirecumbent hairs.

Pale brown, appendages lighter, gaster darker.

*Type locality*.—Huachi, Beni, Bolivia.

*Cotype*.—Cat. No. 29050 U. S. N. M.

Described from a series of workers found by the writer beneath a stone.
