

They nest on the ground under stones and crevices of buildings. *Myrmecina striata* Emery was observed in their nest.

ACKNOWLEDGMENTS. I am grateful to the Director, Zoological Survey of India, Calcutta and to Dr. Asket Singh, Deputy Director, Eastern Regional Station, Zoological Survey of India, Shillong, for necessary facilities. I wish to thank Dr. P.T. Cherian, Superintending Zoologist, Zoological Survey of India, Shillong for constant encouragement. Confirmation of the identity of this species is gratefully acknowledged to Dr. Barry Bolton, British Museum, London.
