

## ACKNOWLEDGEMENTS

T. Crouch (DMNH), C.D. Eardley (SANC), F.W. Gess (AMGS) and R. Toms (TMSA) kindly arranged the loan of material in their care; A. Cook helped with laboratory work, and S. Abraham and

J. Keulder (Rhodes University) prepared the figures. An anonymous referee generously provided details of the synonymy. The study was financially supported by the Foundation for Research Development and Rhodes University.
